Certification in Diploma in Computer Application   May 2022 – Jun 2023

PROJECTS

Food Order E-Commerce Website

After dedicating my time and skills as a web developer, I've successfully created a food order e-commerce platform designed for seamless usage by both customers and admins.

Key Features:

- User-friendly Login & Sign-Up page.
- Robust authentication to ensure secure access.
- Dedicated interfaces for customers to browse and order food.
- Admin panel for managing orders, menus, and users efficiently.

This project showcases my expertise in Full Stack Development and my passion for creating digital solutions that enhance everyday experiences.

I'd love to hear your thoughts on this project! Feel free to connect or message me to discuss collaboration opportunities or share feedback.

EDUCATION

Bachelor of Arts — History
Pachaiyappa's College Madras University   2017 – 2021
Chennai, Tamilnadu

SKILLS
